

# Post Anesthesia: A Team Approach to Patient Care

Join us in our new state-of-the-art Health Science Building for this intensive one-day course is designed for health care professionals caring for patients in the immediate post-operative period.

The day will be divided into a two-part learning experience including classroom and lab/simulation activities.

Classroom topics and simulation scenarios will include:

- Identification of common medications used during surgery and conscious sedation procedures
- Recognition and management of potential post-operative (anesthesia) complications, including side effects related to intraoperative medications
- Development of skills for effective team communication and safe patient handoff
- During collaborative simulation scenarios small groups will incorporate classroom content to increase confidence in post anesthesia patient care

**Instructors:** Nancy Exstrom, RN, and Hillary Bonin, CRNA
