

Reaching Stage 7: A Digital Odyssey (W3062)

Dates: **Thursday, December 7, 2023**

Time: **10:00 a.m. – 11:00 a.m. CT**

Cost: \$195 to NHA members (Per hospital, no charge for additional lines. **Those individuals interested in viewing the recording must register separately at the Zoom link prior to the start of the webinar.** Zoom will send each individual registered an email containing an access code to view the recording.)

Course Curriculum:

A digital health ecosystem empowers individuals to manage health and wellness with the support of health teams. Data is transformed into knowledge, insights, and outcomes by mobilizing and enabling data exchange across the journey of care. These aspects are built on foundational components of data stewardship, privacy, security, and workforce integrity.

Join us in this session to hear how Wellstar Health System matured its digital operating model to achieve a HIMSS Electronic Medical Record Adoption Model (EMRAM) Stage 7 rating for 11 of its facilities, and how they have leveraged insights to shape their predictive modeling strategy.

Learning Objectives:

At the conclusion of this series, participants should be able to:

- Describe how HIMSS EMRAM and its focus areas guide measured clinical outcomes, patient engagement, and clinician use of EMR technology to strengthen organizational performance and health outcomes across patient populations.
- Understand the path to achieving HIMSS EMRAM Stage 7, including the cross-functional collaboration needed for success.
- Discover how HIMSS EMRAM insights help advance the digital operating model and predictive analytics for better patient outcomes.
- Understand how your digital operating model is part of the foundation of the bigger delivery of patient care.
