careLearning

eLearning. Real-World Advantages.

OVERVIEW

Hospitals all over the country utilize this cost-effective learning solution to ensure all employees have required regulatory training, as well as access to hundreds of health care related courses. Users can create an unlimited number of facility specific courses and manage instructor-led meetings, and automatically track and report upon with a few quick clicks in the system.

In this free webinar, you will gain practical knowledge of how the careLearning system will help you organize and manage your education. careLearning is non-profit member service of The Nebraska Hospital Association and over 40 other state hospital associations. For a 3 minute overview of what careLearning can offer your organization, go to <http://info.carelearning.com>.

TARGET AUDIENCE

OBJECTIVES

- Discover who careLearning is and what we have to offer your organization such as an award-winning Learning Management System, Full course catalog specific for healthcare, Competency Management, Performance Management, and much more.
- Learn how our system will assist you in effectively managing both online and live education.

- Maximize course offerings for your employees in a cost and resource effective way.
- Witness how easy and comprehensive the documentation and reporting will make your next performance evaluation or audit.
- See the ways that education is centralized so that employees and managers can easily find out what education is required or available.
- Discuss the implementation process and product support.
- Ask questions of a careLearning Product Expert.

FACULTY

Laura Register, Executive Director
careLearning

Laura Register has been deeply involved in employee training and development throughout her career. She started out as a professional trainer, has owned and managed her own businesses, and has served in various management roles in which employee development was a key focus. Highly experienced in the fields of management, customer service, and technology, she is excited to share with you the ways to increase your employee's knowledge and your organization's ability to track education all while saving countless hours of resource time. What if you had more time by eliminating repetitive tasks, leaving more time for more meaningful things?
