Please join us for a **free** webinar for Safety, Risk and Facility Managers of NHA member hospitals, offered by NHA Services and Preferred Business Partner LMC Insurance & Risk Management

Fleet Safety – Health Care’s Neglected Risk

March 11, 2021

10:00 – 11:00 am CT

No two fleets are alike. No two fleet safety programs and policies should be either. Does yours reflect the real needs of your hospital or health system and your workforce? This webinar will discuss the basic elements of an effective fleet program and developing and implementing your own fleet safety program.

Fleet safety is the health care industry is often an overlooked risk. Home health care, emergency services, and facilities management present fleet hazards and exposure of employees, general public and the health care facility. Every hospital and health system is unique, and your organizations may have exposure to passenger cars, pickups, buses, cargo vans, personal vehicles, and other vehicular exposures.

Learning Objectives:

- Learn the key elements of an effective fleet program
- Learn how to review and monitor motor vehicle reports
- Discuss using personal vehicles for company business
- Learn educational opportunities for all drivers

Speaker:
