The Benefits of Belonging to a Patient Safety Organization

Learning Objectives:

1. Describe the purpose of a patient safety organization.
2. Examine the Patient Safety and Quality Improvement Act (PSQIA) of 2005 and its implications for providing federal confidentiality and privilege protections for providers reporting safety events and developing a patient safety evaluation system within their organization.
3. Discuss the importance of reporting safety events and near events as it relates to meaningful data aggregation and analysis that allows for identification of trends and patterns to be used for driving quality improvement initiatives.
4. Summarize the education and other resources provided to members by the Nebraska Coalition for Patient Safety that promote the culture of safety in healthcare delivery.
