

CBISA Simplified Program List for Nebraska Hospital Association

CBISA helps hospitals and health systems efficiently track and report community benefit activities. We've created a streamlined solution to make data entry easier for Nebraska hospitals.

1. Simplified Program List:

- To simplify data entry, we've developed a basic program list using the community benefit categories as the program title.

Programs		Financial Services	Narratives	Reports & Listings				
Programs								
Filter Programs: 1. All Approved, active programs (default) Help

- This reduces complexity and enables quick and accurate reporting.

2. Guided Data Entry:

- Once the list is set up in CBISA, we'll guide you through entering your last fiscal year's data.
- Personalized support ensures you feel confident using CBISA.

3. Benefits:

- Adding data to CBISA allows your hospital to be part of the NHA Community Benefit annual report. By accepting the snapshot request, you help NHA generate quick and easy reports. You'll also have access to various CBISA reports to utilize the software's capabilities fully.

4. Getting Started:

- Step 1:** Let Lyon Software know you'd like your CBISA updated to the simplified program list.
- Step 2:** Provide your last fiscal year's data.
- Step 3:** We'll guide you through entering the data.
- Step 4:** Learn how to answer a snapshot request and address any questions.

5. Ongoing Support:

- Our team is here to assist with data entry, reporting, and exploring CBISA's features.
